Construction of a suitable building for the accommodation of the Students' Home at Tumkur.

Sl. 1 Letter No. 5479/185d the 1st December 1902.

Note

A sum of Rs 12000 is stated to be required for the purpose. The D.C. requests that this may be entered in the Budget Estimates of the 1903-1904.

As this is a building to attached to the High School, the cost of the proposed Students' Home, will have to be met from the D. P. W. Budget.

SIR,

I have the honour to inform you that the want of a building for the Students' Home attached to the Tumkur High School is greatly felt. The Home has now 56 resident students for whose accommodation four separate houses have been rented. As the students live in four separate buildings supervision and discipline cannot be easily maintained. The Home is one of the best managed hostels in Mysore and deserves to have a suitable building erected for it at the cost of Government. I shall be glad if Government will be so good as to sanction

Sir,

Adverting to your No G 3488 of 13th January last, stating that a building constructed at a cost of between 10 to 12 thousand rupees seems sufficient for the Students'Home proposed to be attached to the High school at Tumkur, and calling for the plan and estimate prepared therefor, I have the honor to forward the accompanying modified project amounting to Rs 13,166/- which is slightly in excess of the amount of Rs 12,000/- fixed in the letter under reference From the enclosed copy of the Eastern Circle, Superintending Engineer's No 4001 of the 21st instant, it will be seen that the present estimate is hardly susceptible of further reduction, and that the delay in its submission is due to the question of site not having been settled earlier Mr Bhabha has since intimated his approval to the site marked in yellow on the aite plan also forwarded

11 There is a provision of Rs 8,000/- for the work in the cur-rent year's P W Budget, and the project will be sent up to Government for sanction as soon as it is returned by you

Docket No 400-1 dated 21st July 1904 from the Superintending Engineer,Eastern Circle,to the Chief Engineer of Mysore

---

Chief Engineer's No 441 of 21st January 1904,calling for the submission of a modied estimate for constructing Students' Home at Tumkur and Reminder No 4252 of 20th instant

---

In compliance with the above,has the honor to submit for favour of disposal modified project amounting to Rs 13,166 for the proposed Building and to state that there is a provision of Rs 8000 for the work in the current year's Budget.

2 The Project could not be submitted earlier as the Chief Engineer in his No 860 of 3-2-1904 desired undersigned to settle the question of site &c in consulation with the Inspector General of Education This matter has been the subject of correspondence between the Executive Engineer and this office during the last few months and has lately been disposed of. Accordingly the site plan has been forwarded to the Inspector General for favour of his approval,and on receipt of his reply the same will be duly communicated.

3 In the accompanying modified estimate a sum of Rs 200 has been provided on account of compensation for the site,the amount fixed by the Deputy Commissioner for this purpose being Rs.195

4 In the General and Revenue Secretary's No G 3488 F D. of 13-1-1904 the General Secretary remarks that "A building at a cost of between Rs 10,000 and 12,000 seems sufficient", but in Chief Engineer's endorsement No 441 of 21-1-04,nothing is said as to the necessity for cutting down the estimate for Rs 13,166 to Rs 12,000 which estimate for Rs 13,166,judging from Chief Engineer's No 5516 of 13-10-03 to the address of the Inspector General of Education,the Chief Engineer would appear to have accepted As the amount of the estimate,as it now stands is only slightly above Rs 12,000 and as it is hardly susceptible of

of further reduction, undersigned has submitted it as it

turning the project for Construction
of Students' Home at Tumkur,
with instructions to provide
Verandahs on both sides of the
blocks or a Corridor between the
rooms in each block

In compliance with the above,
has the honor to submit for favor
of disposal the following Revised
Estimates

(1) Estimate marked A providing
for a Corridor in the Centre
cost Rs 14,147

(2) Estimate marked B providing
Verandahs both in front & rear
cost Rs 14,437

In the plan marked D I both the
the proposals have been shown

The proposals of Estimate B
are slightly more costly being
Rs 290 higher than those allowed in A

II In framing fresh Estimates with the above modified proposals opportunity has been taken to provide for a little extra depth of foundations, the result of trial pits excavated since the selected site having rendered this necessary The increased cost on this account amounts to Rs 233 only As the question of site had not been settled at the time of the submission of the original estimate, trial pits were not then dug as has now been done

III Abstract marked C furnishes particulars as to the relative cost of the several proposals

Correspondence ending with letter No 5839 of the 27th Sept 1904 from the Chief Engineer of Mysore forwarding revised alternative plans and estimates for the construction of a building for the Students Home at Tumkur.

ORDER THEREON —No

Enc 19 to Ch Engineer

Order thereon (3272-74) - 6-1 vol
No 2 19/10/04

Of the two plans received over

SUBJECT

Sanctioning ~~the Contract~~ a plan for the Construction of a building for the Students Home at Tumkur—

with the above, one provides for a corridor between the Rooms each of the Students blocks while the other provides for Varandahs on both sides of each block The former is estimated to cost Rs 14,147 and the latter Rs 14,437. The Govt of H H the Maharaja of Mysore ~~Com~~ agree with the Chief Engineer in considering that the plan providing for Varandahs on both sides of the blocks is by far the better, ~~while its cost~~ is ~~only Rs 290 more than~~ the other, and they are accordingly pleased to approve of the same.

2 The plans and the estimates received with the above are returned to the Chief Engineer.
